FILOSOFIA
ITALAMP PHILOSOPHY

PHILOSOPHY

: Dal 1975 la filosofia di Italamp si fonda sulla percezione del contesto in cui viviamo e sulla consapevolezza che l'essere proiettati nel futuro, non significa lasciare il passato alle spalle: i classici, la tradizione, il nostro Made in Italy, devono essere visti come una vera e propria ricerca, valorizzazione e sviluppo del ricco patrimonio di originalità italiana. Selezione accurata dei materiali, cura dei dettagli e, al tempo stesso, capacità di osservare le cose del passato con occhi nuovi: sono queste le parole chiave alla base della visione strategica della società, che con grande spirito creativo e ricerca continua, propone oggetti innovativi e originali, anticipando le tendenze future del mercato.
Attenzione al design, alla funzionalità e alla qualità: non solo creatività fine a se stessa, ma attenta scelta dei materiali migliori e più innovativi per caratterizzare ogni ambiente in modo inconfondibile.

: Italamp philosophy stems from the perception of the context in which we live and from the awareness that being projected into the future does not mean leaving the past behind: the classics, tradition, our Made in Italy, should be seen as a genuine research, enhancement and development of the rich heritage of Italian originality. Accurate selection of materials, attention to details and, at the same time, ability to observe things from the past with new eyes: these are the keywords underlying the strategic vision of the company, that with great creative spirit and continuous research, offers innovative and original objects of light, anticipating the future trends of the market.
Attention to design, to functionality and to quallty: not only creativity as such but also a careful choice of the best and more innovative materials to characterize each space in an unmistakable way.
